Col. H. Clay King's Death Sentence Suspended by Gov. Buchanan

And the Aged Murderer of Lawyer Foster Will Go to the Penitentiary for Life—The Last Act in the Celebrated Southern Tragedy.

NASHVILLE, Tenn., Aug. 10.—The last resort has not failed. Col. H. Clay King and his neck are saved from the gallows, and at a late hour Tuesday afternoon Gov. Buchanan attached his name to the document that suspends the death sentence and will send the aged murderer to the penitentiary for life.

Never were more desperate efforts made to save a man from death.

The Shelby county court found H. Clay King guilty of murder in the first degree in the shooting of David H. Fenton and sentenced him to death. Application for a new trial was made and refused. The case was appealed to the supreme court and the best legal talent that could be had fought the case before that tribune, and four of the justices decided that there had been no error and re-sentenced King to death, naming August 12 as the date. Then a few weeks ago application was made to Judge Howell Jackson, of the United States circuit court, for a writ of habeas carpus, alleging that incompetent jurors had sat in the case, and that the action of the jury was invalid from the fact of the trip to Arkansas. Judge Jackson denied the writ, and also denied the right of appeal to the supreme court. It develops Tuesday that an application had since been made to Justice Harlan, of the United States supreme court, to have the case taken before the United States supreme court on a writ of error, but that Justice Harlan sustained Judge Jackson's decision and refused the application. This left but one chance for Col. King's life, and that chance has proved his salvation. For weeks past his family have been circulating petitions, not only in Shelby, but in adjoining counties and states, and prominent men all over the country have been appealed to to write to Gov. Buchanan, and with success. Hundreds of letters have been received from prominent men in every walk of life, and Senators Carlisle and Harris have written, and the latter made a personal appeal to the governor. The petitions asking clemency were signed by fully 20,000 names. The murdered man's friends in the meantime were active, and the aged wife not only made a personal appeal to the governor but, in company with several friends, visited Mrs. Buchanan at her home in Rutherford county, and appealed to her to use her influence with the governor. The matter has been considered by the governor for ten days. His desk has been filled with the papers in the case, and the reports of the breaking down of Col. King's mind has also attracted his attention. He debated the matter until Tuesday evening, when he entered Atty-Gen. Norman's office and instructed him to fill out the proper blank. This he at once signed and the papers were forwarded to Sheriff McLendon Tuesday night. The governor's action creates no surprise here, as it has been thought all along that he would commute the sentence.

KOLB'S CLAIMS.

He Says That He Was Elected Governor and the People Will See That Justice is Accorded Him.

MONTGOMERY, Ala., Aug. 10.—Ex-Commissioner Kolb, late alliance candidate for governor, is out in a published letter Tuesday morning disputing the claims of Jones' election. The letter concluded: "I have been fairly and honestly elected by over 40,000 majority, and the people of my native state recognize the fact, and will see that justice is accorded by placing me at the head of our state government for the next two years." The letter creates a sensation, and is regarded as an evidence of Kolb's intention to challenge the official count, which is nearly completed and fixes Jones' majority at between 9,000 and 12,000. The official returns from fifty-eight of sixty-six counties give Gov. Jones 9,384 majority. There are eight counties from which the official returns have not been received, but the majorities in which are pretty accurately known. Four of these counties give majorities for Gov. Jones as follows: Baldwin, 34; Monroe, 360; Washington, 900; Wilcox, 3,706; a total of 4,219. Four give Kolb a majority as follows: Coffee, 700; Covington, 47; Henry, 1,514, and Winston 100; a total of 2,361. This gives Gov. Jones a clear majority of 11,244.

AS IT WAS WRITTEN.

She "needed the situation so bad,"
She said with a charming smile,
That I paid off a typewriting youth I had,
And took her to try awhile.

She came next morn with a yellow bow
At the side of her snow-white throat.
"I'm no idea that a girl would be so
Much nicer," I thought as she wrote.

But this was her first letter: "Dere sur we Send
Sum Murshandize c o d
Anatrusting Yure ade too our Piuns youle lend
Were yourn most trooly A. B."

Wondering, I questioned her as she turned,
And finished the cryptic word,
"At a lightning typewriting college I learned,
But we hadn't a time to spell."

DR. KEELEY TAXED.

His Institutes Must Have a License the Same as Drugstores.

There is no question about the fact that Uncle Sam has an eye for perquisites, says *The Louisville Times.* It comes to the public now that a Kansas City Internal Revenue Collector has very recently notified the St. Joseph Keeley Institute of the fact that it would have to pay a special tax as a liquor dealer. This branch institution at once put their case into the hands of the authorities at Dwight, Ill.

One of the important features of Dr. Keeley's gold cure for the drunkenness disease is to furnish whisky in almost unlimited quantities to the patients. This naturally creates a new demand upon the market, which, in the course of nineteenth century evolution, must be met by a tax to offset the general fitness of things.

The Keeley Company filed a strong protest at the department at Washington, which brought forth a peremptory reply from the pen of Commissioner Mason. The Keeley Company objected to the declaration under oath that they are retail liquor dealers. The Internal Revenue laws are iron-bound, however, and distinctly rule that every druggist who sells whisky or other spirits not combined with drugs, though he furnishes the spirits on a physician's prescription and for medical use only, is required to pay a special tax as a retail liquor dealer.

THOMAS A. DAVIS, *Postmaster.*

The World's Fair All Right.

In a published interview Director General Davis, of the World's Columbian Commission, is quoted as saying that Congress had really given the Fair $3,283,000, or $783,000 more than it is generally understood the bill called for. His summary of the various items, bringing the total to the sum stated, is as follows:

World's Columbian Commission, $120,000; Board of Lady Managers, $110,000; Government Exhibit Board, $400,000; medals and diplomas, $103,000; for loss on coinage of souvenirs, $50,000. World's Columbian Exposition, $2,500,000. Total $3,283,000. Mr. Davis thinks, goes on to show how this amount can still be further increased by disposing of the souvenir half dollars at a premium.

"Now, gentlemen," he is said, "that I have not counted anything for premium on the half dollars. I know of an offer of 20 per cent. premium on the whole issue that is ready now. My opinion is that every one of the half-dollars is worth at least 75 cents. A moderate estimate would give us $500,000 profit there, so that we must have Congress for making us a present of nearly $4,000,000. I feel sure that the more the friends of the Fair consider the question the more they will feel the value of the legislation in its favor."

J. H. OSBORNE who fell from the balcony of the Commercial Hotel several nights ago is probably more seriously injured than was at first supposed. The indications are that some portion of the skull is pressing on the brain. He remains in a semi-conscious condition for hours at a time, arousing only when disturbed. His physicians, however, have hopes of his ultimate recovery.

THE families and relatives of the men killed in the Lake Bridge disaster are not going to refrain from securing the substantial satisfaction they feel themselves entitled to mercly because a Coroner's verdict has cleared the contractors from blame. The first suit growing out of the affair has been brought at Covington by the administrator of Charles J. Bronston against the Louisville and Campbell County Bridge Company. The suit is for $50,000 damages. Gresham was a workman on the bridge, and was killed in the great catastrophe. The suit charges that he lost his life by the negligence of the company in the building of the bridge.

THE following is from *The Ashland News:* "The Zulu preacher here some days ago was arrested for disorderly conduct, which was the second time he had been in the clutches of the officials here. He put $100 for his appearance at Huntington, but he never appeared. He is also wanted in several Ohio towns. His 'modus operandi' is to go into a town where there are a number of colored folks and represent himself as a benefactor of the colored race, and set to work to collect money enough to build them an elegant schoolhouse. After he succeeds in bleeding his race for every cent there is in sight he quietly disappears, and the colored people are left to nurse their disappointment as best they can. The scamp rides a bicycle, and is quite a sport. The communities that have not yet made his acquaintance should look out for him.

THE BOYCOTT

May Yet Be Used to Win the Homestead Trouble.

An Attempt to Draw the American Federation of Labor

And the Several Powerful Railroad Organizations Into the Scheme—There is Some Doubt as to the Final Result of This New Movement.

PITTSBURGH, Pa., Aug. 10.—Tuesday afternoon the advisory board of the Amalgamated association met and organized to consider the attitude to be adopted by the association in the present labor troubles. The board expects to spend the remainder of this week in deliberation over this matter.

The point at which the association intends to try to make its most effective fight is at Homestead.

The point now under consideration by the board is to endeavor to secure the aid of the Brotherhood of Engineers, the Switchmen's association, and other railroad organizations, with a view to effectually stop the shipment of all material to or from any of the Carnegie works. If this plan is put into operation, together with the boycott that the American federation may adopt, the workmen will have a power at hand, the like of which has never been wielded by any labor organization in the country.

Speaking of the attempt to get the railroad men to refuse to handle or haul the products of the Carnegie Co., Mr. James M. Bailey, of the Sligo Rolling Mill Co., said: "They can not possibly do it. The law would prohibit such a move, and the parties concerned would be liable to arrest for conspiracy. The railroads are common carriers, and can not refuse to handle the goods."

The Amalgamated officials themselves are very doubtful of the probable results of the move, and admit that the chances are decidedly against them, but they are trying this scheme as their most effective plan for winning the Homestead fight.

The upper Union mills of Carnegie were running all departments Tuesday but the number of men at work can not be learned. The 18 and 30-inch mills started up Tuesday morning. Everything is quiet in the vicinity of the mill. Tuesday morning the workmen floated a large American flag above the works. Superintendent Dilion said this was done as an emblem of victory.

Hugh O'Donnell telegraphs that he has secured $1,000 in Boston alone for the strikers.

AWOKE AND YELLED.

The Strange Feat of a Somnambulist at Reading, Pa.

READING, Pa., Aug. 10.—Joseph L. Tomlinson, of Milwaukee, Wis., arrived here several days ago and registered at Dr. John Stewart's sanitarium, at Ridgewood, two miles below Reading. He told Dr. Stewart that he was a somnambulist. The first night the doctor overtook him on the grounds as he was about walking over a one hundred-foot precipice. The second night several of the inmates came from his room. Here he was found in a terrible condition. It appears that he dreamed that his toes had been cut off, and he deemed it necessary to sew them on. In his somnambulistic haste he procured a rusty needle, with a strong string attached, and drove it through four of his toes, literally sewing them together. He then awoke and yelled. The rusty needle has caused blood poisoning and he may die.

The ground has since been contested by several persons, and in addition has twice been jumped and settled upon by people claiming it as a town site. The tract is valuable, being the best portion of Oklahoma City.

IN HOC SIGNO VINCES.

A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Republican who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Unanimously subscribed to by the National Republican League.

J. S. CLARKSON, President.

THE SENATE.

The radical contrast between the course of the Republican majority in the Senate and the course of the Democratic majority in the House in the session just ended, cannot fail to make a profound impression upon the intelligent voters of the country, says *The New York Press*. The difference in every respect is strikingly in favor of the Senate. The Republican majority in that body dealt with the legislative problems presented to them in a patriotic and statesmanlike manner. While the action of the House has been characterized throughout by rank demagogy and reckless disregard of the Nation's interest, the Senate has acted as a barrier to much vicious and dangerous legislation, and has succeeded in several instances in forcing the unwilling Democracy of the House into at least a partial performance of its legislative duty.

The passage of the Stewart Free Silver bill cannot be ascribed to the Republican majority in the Senate. The Stewart bill was passed by Democratic votes. More than three-fourths of the Democratic Senators supported it. More than two-thirds of the Republican Senators opposed it. Democratic organs which attempt to throw the responsibility for the passage of this measure upon the Republicans deliberately prevaricate. The record shows that only fourteen out of forty-six Republican Senators, paired and voting, were for the Stewart bill.

In the defense of the American Navy from the mean and cowardly attacks of the Holman Democrats the Republicans of the Senate performed a service of great value to the country. To their resolute stand in behalf of the Navy is due the additional armored battleship which Secretary TRACY proposes to make the most formidable fighting craft in the world. The Senate did not gain the torpedo boats and gunboats which it asked for; but it wrested from the niggardly and unpatriotic House two great warships that will constitute an immensely important addition to our naval strength. Republican Senators originated the measure which added the magnificent ocean racers *City of Paris* and *City of New York* to the American marine, and provided for the construction by the Inman Company of two equally valuable vessels in American shipyards. The Senate also passed and sent to the House the bill admitting the Pacific Mail steamship *China* to American registry under similar conditions. But for the inexcusable failure of the House to act in the matter the *China* and an equal sister ship would have been added to our Pacific fleet.

The Senate insisted on a deserved increase in the pay of the gallant men who compose the life saving service and carried its point against the obstinate resistance of the House. It demanded that the consular service of the United States abroad should be maintained in an efficient condition; and it compelled the Democrats of the House to abandon the barbarous and un-American provisions of the Geary bill in regard to the exclusion of the Chinese, and to adopt an exclusion measure more in conformity with justice and humanity. In the difficult and complicated negotiations with Great Britain in reference to Behring Sea and all diplomatic differences with other Nations, the Senate has loyally sustained the administration and the honor of the United States. Its sensible action in voting to appropriate $5,000,000 to insure the success of the Nation's great exposition at Chicago was directly opposed to the stingy and shuffling course of the Democrats of the House. The exhaustive and impartial investigation by the Senate Finance Committee of the course of wages and prices since the enactment of the McKinley law has clearly demonstrated the practical benefits of that measure and has resulted in the accumulation of a great mass of highly valuable data regarding a subject which is of vital importance to every American citizen.

Republicans can well afford to appeal to the country upon the record of the Senate as opposed to that of the House. The Republican Senate has again demonstrated the fact that the Republican party, unlike the blundering Democracy, knows how to govern.

EDITOR DANA has taken a trip to Europe, and it has been necessary to hire substitutes during the campaign for the whole editorial force in order to get any one to support CLEVELAND.

HARRITY is going to hang on to his office of Secretary of the Commonwealth of Pennsylvania while he is giving his time to CLEVELAND'S campaign. CLEVELAND may not be able to provide for him after the campaign. Evidently the Democratic Chairman is not willing to take chances.

MR. CLEVELAND, in his calamity speech at the "notification" meeting, said that the farmer is "listening to a delusive story that fills his mind with visions of advantage, while his pocket is robbed by the stealthy hand of high Protection." Now comes the Senate report showing that prices of agricultural products have risen, on the average, 13.67 per cent. since the McKinley law was enacted. No wonder the farmer "don't understand." BRITISH GOLD.

It is Believed That Divers Have Located the £1,000,000 Which Sunk in 1780.

NEW YORK, Aug. 10.—The men employed by the Little Giant Wrecking Co. in searching off Port Morris for traces of the British frigate Hussar, which went down with £1,000,000 gold aboard her, in 1780, think they have excellent reason to be sanguine. The big dredges which are being used about two weeks ago brought up a lot of grape-shot and about a bushel of flint stones. The company is composed of residents of Leominster, Mass., and Capt. Simonds, who is in charge of the work, says that the stock can not now be bought for $250 a share.

"We hauled up something more Tuesday," said Capt. Simonds, and he looked jubilant, "The big scoop dropped a load into the screen about 10 o'clock which the men examined very carefully. They found a lot of gun flints, with which the Hussar was ballasted, and about twenty grape-shot. A number of black granular chunks puzzled all hands. I found that it was gunpowder. We must have hauled up 500 pounds of the stuff. Of course it had spoiled, but it shows that we have struck the right spot. We also have found pieces of worm-eaten oak planking, which could only have come out of a British man-of-war. "Yes, we are sanguine of success. Our search-light will be here in a few days. It will be lowered to the bottom, and then the divers can work to advantage."

Capt. Simonds has a force of twenty men. They live in a two-story house-boat, which is anchored about 500 feet off shore.

The stockholders of the company met in Leominster last Saturday and authorized an additional issue of 100 shares at a par value of $40.

RIDDLED WITH BULLETS.

Outlaw Eugene Bunch "Removes" Shirley, a Suspected Spy.

NEW ORLEANS, Aug. 10.—Eugene Bunch, the famous train robber, killed Henry Shirley at the residence of a man named Duncan, in the Dolgwood neighborhood, in Washington Parish, La. Shirley was visiting Duncan. A small party was given at Duncan's house, and as Shirley stepped out Bunch, who was waiting for him opened fire on him with a Winchester rifle. Death must have been instantaneous at the first shot, but the murderer kept on firing until he had lodged ten bullets in the body of the dead man, any one of which would have been fatal. Bunch figured very conspicuously in several big train robberies, notably on the Illinois Central and Louisville and Nashville railroads, on the latter which occurred near Flomaton or Pensacola Junction. He captured a large amount of money. He beat a retreat to the section where the murder occurred, and where he has long lived and there his money and the fear he inspired protected him from arrest. He was very suspicious of strangers, and when Henry Shirley moved in there from Harrison, Miss., Bunch got the idea in his head that Shirley was watching him and preparing to arrest him for the large reward offered by the railroads or to put the detectives on his track, and he therefore stopped all proceedings very effectually with his Winchester.

Avenges Her Honor.

WARSAW, Aug. 10.—A governess named Mariscka, employed in the family of a Russian official, entered a cafe in this city, approached a table where two officers were sitting, and, drawing a revolver from the folds of her gown, shot one of the men, Lieut Golowac, through the heart. Before any one could interfere she drew a knife and plunged it into the breast of the other officer, Capt. Mutelink, inflicting a mortal wound. When arrested the murderess calmly declared that she had committed the act in revenge for aspersions cast upon her honor by the two officers.

The Knights at Denver.

DENVER, Col., Aug. 10.—The Knights Templar have possession of the city as much as if it were one of the eastern cities they captured during the early campaigns. Every thing is theirs, except possessions of a very few retail dealers, who are determined to make all they can out of them. The parade was in every sense a magnificent pageant. The details were so perfect that not the slightest hitch occurred anywhere. The fourteen divisions formed promptly into line on Fourteenth street, and marched in good order throughout.

BOLIVAR, Mo., Aug. 10.—Extremes met in this city Tuesday morning when the Texas giant, Col. The Soldier Boys Will Shortly Evacuate Homestead.

Locked-Out Men Jubilant Over Continued Desertions

From the Carnegie Mills, and Claim That They Have Almost Won the Strike—Everything is Quiet, But What Does This Quietude Presage?

HOMESTEAD, Pa., Aug. 10.—The Fifth regiment left for home Tuesday evening. The Tenth regiment will leave soon. Part of Gen. Wylie's staff went home Tuesday.

The locked-out men at Homestead are exceedingly jubilant over the continued desertions from the Carnegie mill.

Vice Chairman Crawford, of the advisory committee said Tuesday morning:

"There is no longer any doubt that we have the strike almost won. From information received from the inside, thus early the firm is greatly handicapped by the desertions, and it is believed that fully nine-tenths of the men now at work inside the mill will come out within the next week. They are rapidly tiring of their prison-like life and restricted liberty.

"Contributions to the relief fund continue in a satisfactory manner, and our soliciting committees have been very successful. The announcement that Hugh O'Donnell will return home on Wednesday has also kindled fresh hopes, and the men are as firm in the determination to win this contest as they ever were."

Manager Potter denies the wholesale desertions from the works, as claimed by the advisory committee, but the latter have names and addresses of many of the deserters, together with affidavits to substantiate their claims in this particular.

PITTSBURGH, Pa., Aug. 10.—Everything was quiet in the vicinity of the Carnegie union mills, Tuesday. The eighteen-inch and the twenty-inch mills were run in the morning by shifting the crews from other departments. The firm is offering $3.50 per ton, with a contract running for sixteen months, for puddlers, but so far has received no applications.

It is stated that eight non-union men left the Thirty-third street works Tuesday morning. The strikers say they have information that the mill is fast going to rack on account of the incompetency of the present workmen. They say that Monday the company suffered great loss of money on account of caving furnaces and badly burned iron.

Taking Mongolian Photographs.

ROCHESTER, N. Y., Aug. 10.—The work of getting the photographs of all Chinamen in this city has begun. In addition to the photographs a register will be made, giving name, age, height, weight and other items that would serve to identify the Chinaman at some future time. This registering is to take place according to the terms of the Chinese exclusion bill, which was passed by congress on May 5, 1892. There are only fifteen Chinamen in Rochester.

Allegheny Anarchists Discouraged.

PITTSBURGH, Pa., Aug. 10.—Anarchism in Allegheny has been given a fatal blow by the police on the north side of the river, and since the wholesale arrests made at the time of the recent outbreak everything has been peaceful in the camp of the reds. The police are not making any arrest, nor are they giving any attention to the matter. They say that they are sure they will be given no more trouble by the followers of Herr Most.

A Judge Commits Suicide.

ST. LOUIS, Aug. 10.—Judge J. C. Normile, of the St. Louis criminal court, who recently brought suit against the Post Dispatch for $400,000, also having its three responsible directors arrested on charges of criminal libel, committed suicide Tuesday afternoon, taking poison.

MR. GLADSTONE

Hits the Tory Some Hard Knocks—The Law Must Harmonize With the People's Opinions.

LONDON, Aug. 10.—Wild cheers greeted Gladstone when he arose in parliament Tuesday to speak in the debate on the queen's address. When the applause subsided Mr. Gladstone said that there was just cause of complaint against the government for having embarked the house in an utterly barren and anomalous debate. Hitherto the queen's speech had always admitted that the result of a general election was binding and conclusive. "Now," added Mr. Gladstone, "we find the decision of the country challenged by the government, and this house has met to discuss it does not know what." (Conservative and liberal-unionist cheers.)

Mr. Gladstone went on to say that the criticisms of the other side on the composition of the liberal majority, struck at the root of the constitution. Should the idea be generally adopted, it would be a blow at parliament and at the nation. The liberal majority doubtless had Irish votes for a basis, but under the circumstances this was rather a recommendation than a ground for assailing the right for such a majority to represent the people.

Mr. Gladstone denied that the government had succeeded in pacifying Ireland. The land bill of 1887, he said, was doubtless of benefit, but the government's Irish rule, on the whole, had been a hateful failure. The liberals believed as strongly as anyone in a firm administration of the law, but they also believed that the law ought to harmonize with the opinions of the people. Therefore, said Mr. Gladstone, he trusted that the coercion act would not remain any longer than necessary on the statute book.

DYNAMITE IN HIS POCKET,

So Was a Hot Pipe—The Two Come Together—Explosion.

SCRANTON, Pa., Aug. 10.—Anthony Duffy, with his little child in his arms, and accompanied by Miss Kate Coultry, was walking on the street at Archbald, when a sudden explosion threw them to the sidewalk. The young woman's arm was badly cut and mangled, and Duffy received a severe wound in the abdomen, which it is feared will have serious ending. The child was not injured. An examination revealed part of an exploded dynamite cartridge in Duffy's vest pocket, which the heat from a pipe he had been smoking, and which he placed in his vest pocket, had ignited. In another pocket was also found a similar cartridge. Duffy claims ignorance of ever owning such dangerous articles and thinks he can pick out an enemy who wanted to remove him. Duffy is a widower.

SAW BOTH MOONS.

Crack Star-Gazers at Goodsell's Observatory Have a Scoop.

NORTHFIELD, Minn., Aug. 10.—Goodsell's observatory can claim the distinction of being the first during this opposition to see Mars' two moons. Profs. Payne and Williams, of Goodsell's, and Prof. Cummerberry, of Des Moines, made some observations, and after they had finished their search Prof. Payne said: "I think we are the only ones who are able to see the moons this trip, and this is as fine a sight as I have seen since 1877. Though not quite so long Phobos looks redder, while Diomed looks less red. We can hardly tell, it is so far, just how far these moons' circuit around Mars is, since the only way of measuring these distances is focusing the light." Prof. Payne also said that there is no doubt that Mars is inhabited.

He Stole Live Stock.

SPRINGFIELD, O., Aug. 10.—Samuel Hate, a hitherto respectable citizen of Catawba, was arrested Tuesday and confessed to stealing lambs and pigs from his neighbors and selling them to Springfield butchers. He has been stealing for over twelve years and gave an assumed name to the butcher. He would go to a neighbor's flock in the dead of night and steal two or three lambs and sell them in the morning. He is in jail and broke down completely when arrested.

Killed for Shouting for Jones.

MONTGOMERY, Ala., Aug. 10.—Another fatal shooting affray growing out of the result of the recent state election occurred in Greenville, on the Louisville and Nashville railroad. A Negro and George Hicks, a son of Tax Assessor Hicks, became involved in a quarrel, the Negro shouting for Jones and Hicks for Kolb. The Negro was shot three times and was killed. There is much excitement, and more trouble is feared.

A Genuine Bull-Fight.

There has been some talk of beer kegs in this Christian community. Oh, surely this is a mistake. It must be bluelick water. But for fear of some evil report, we do hope it may be thoroughly investigated, and all, even the very appearance of evil removed.

Boyton's Water Circus.

Captain Paul Boyton's Water Circus, the only one of the kind in the world, will be given in the Big Miami river at Woodsdale Island Park, Sunday afternoon, August 14th. The circus lasts two hours and a half and includes over thirty different feats and acts on the water, all new, novel and characteristically original, the whole concluding with a thrilling naval battle between two full rigged ships, and the complete destruction of one by a powerful torpedo. Aside from Captain Boyton's wonderful nautical exhibition in a rubber suit, in which he eats, smokes, drinks, sleeps and does many other unexpected and seemingly impossible things in the water, there will be a canvass canoe race between George Whistler of San Francisco and Andrew Paige of Winnipeg, a unique performance on floating logs by R. J. McFall, and a polo game played by the entire company while standing upright on the surface of the water in the new patent shoes. This last is the most astounding of water sports. There will also be a grand display of aquatic fireworks and ocean signals. The Captain will be at the park all day. The morning being occupied in making his preparations for the circus. A STRANGER entered a flourishing Illinois town a few days ago and approaching a leading citizen said: "I want to meet the enterprising business men of your town. Can you give me their names?" THIS is said by *The New York Press* about a prominent Kentucky Democrat: "Personally, Governor McCreary is extremely popular. He is an air of dignity, blended with good humor and approachability. He is short and stocky, with a face clean shaven and regular in outline. For years he presided over the popular house of his State Legislature, and four years more he was Governor of Kentucky. When in Congress still later he was often called upon by Mr. Carlisle to preside over the House of Representatives. He was never known to lose command of that turbulent body. As a presiding officer he is held by many to rank with James G. Blaine, Samuel J. Randall and Thomas B. Reed, through less demonstrative than either of them.
